### **ANNUAL REPORT 2014-2015**

Lokkalyan Charitable Trust was started in 2001 in satara district of Maharashtra. It started its activities with a non- formal education and Vocational Training centre for children. Over the years LCTS Focus has been on the development of poor and Marginalized children's .Its activist has diversified in the fields of children literacy, child health rural employment generating skills SHG formation, community health and awareness programmes on various social issues. The NGO is working in rural as urban areas of satara district.

LCT have received support from serval donor organizations as well individuals. Its PAI program has been support sponsorships for children from a network of individual supports clientan foundation has been LCTS consistent partners been involved with its organizational development .The other support grants are its organizational development. The other support grants. are women and child development, Sports department, Maharashtra culture department,

### **Our Activities:**

- 1) **TCI Foundation program Kavach:** Started in Jan 2012 The project is implemented through a chain of khushi clinics at satara transshipment hubs where truckers halt for at least 12 Hours network of highways connecting Delhi, Kolkata, Chennai, and Mumbai theses clinics each.
  - Serve an inflow of 100 truckers a day on average. The clinic also serves. The local community including workers employed at the halt point. The programme also uses some nontraditional outlets. Such a tea shops tobacco outlets. And roadside cafes and eateries, to distribute condoms while interacting with

truckers, shopkeepers at these outlets provide back ground information about HIV/AIDS and the dangers of not using condoms.

- Project khushi clinic four main components: Clinical management of sexually transmitted infections and related counseling. Because long distance truckers are highly mobile, they need access to medical facility where they travel project clinic has therefore located its khushi clinics 1 major trucker halt point in satara this halt point about 10000 to 15000 truckers a year as they stop to rest to repair their vehicles and like. The project has reached large number of truckers and other between Jan 2013 to Sep 2014 its treated nearly 5000 people for sexually transmitted infections 80% of them truckers.
- **Objectives:** To reduce the incidence of various sexually transmitted infections among long distance truckers through appropriate clinical intervention.

#### **Child line Foundation (1098 Child Help line):**

### **The Health promotion Activities.**

The Migrant workers for sugarcane cuttings are suffering of many diseases.

They have neglecting their health; we have created health awareness thorough various B.C.C activates slide show street plays, poster exhibition

etc promoted by conducting health camps and health visits for them.

The 8000 migrant workers have been benefited by decoction, awareness,

Health services and interruption in denial their rights. The evaluation

Study of protecting the children from abuse

Exploitation, The truth came that 70% of the adolescents have

Been sexually exploited in their childhood. This wild truth made

us restless and mission of child life protection activated. This movement

Created awareness in the society about child right. Protection act.

The children Rights and authentic interferences.
