### **Childline Project**

Child line is national emergency toll free phone outreach service for the

Children in need of care and protection operates on the 1098 number and is supported by the ministry of women and child Development (WMCD)

Government of India and works in partnership with state governments

Lokkalyan Charitable Trust (LCT) has been appointed as the collaborative organization for setting up, Managing and monitoring the childline 1098

Service all over the District .childline 1098 service all over the satara District

.Child line 1098 service is cited by the Government of India as Indians

Response

to commitments under the child Rights convention of the united nations to Which India is a signatory?

The service focuses on the needs of children living alone on the streets. Child laboures, domestic, workers, run way children children's of sex workers and sexually abused children.

**The Basic objectives of the childline services are as follow:**

- ☐ To respond to children in emergency situations and refer them to relevant
- ☐ Government and non-governmental organization and link them to long

### Term rehabilitation

- ☐ To create a structure which ensures the protection of the rights of the child
- ☐ as ratified in the UN convention on the Rights of the child and the
- ☐ Juvenile justice (care and protection of children ) Act 2000
- ☐ To provide a platform for networking amongst organizations and to strengthen the support systems which in especially difficult circumstances
- ☐ To sensitive agencies such as the public, hospitals, municipal corporations
- ☐ and the railways towards the problems faced by these children.

### **1098 Events – CHILDLiNE open House,**

Child participation involves encouraging and enabling children to make their views known on issues that affect them. Given the Genesis of the CHILDLiNE service, its identity continues to be linked to a deep-rooted vibrant relationship with children. Involvement, respect, best interest of the child, access to information, expression and empowerment are some of the key aspects that come to mind when we think about what the concept of child participation means to CHILDLiNE. Similarly, being a facilitator, listening to children, acceptance and accountability are some of the requirements that emerge while envisioning our role in the process of enabling children to mean to CHILDLiNE .similarly, being a facilitator, listening to children, acceptance and accountability are some of the requirements that emerge while envisioning our role in the process of enabling children to meaningfully participate. CHILDLiNEs belief that when children are heard and involved, systematic changes would impact their lives positively has grown even stronger over the decade of its service.

Open House is an open forum for children to raise issues faced by them to the CHILDLiNE team. This platform also allows children to heard and seek support of government systems. The allied systems present in a particular are invited to the open House to participate. Held once a month. Open House is a tool for child participation that helps identify problems faced by children and for us to receive feedback on the effectiveness of the CHILDLiNE service .CHILDLiNE then follows up with decisions taken to reach a logical conclusion.

### **Some outcomes from the open House conducted during the last year**

- ☐ 22 children were admitted to a government school in municipal school
- ☐ More than 10 school dropouts' were found in a slum area in satara. Most of the children had quit school due to economic conditions. A letter was written to the Education officer by CHILDLINE Team to provide school facilities to these children. Post this intervention a school was set up with teachers in that area . At present 25 children are enrolled in this school.
- ☐ An open House conducted in Slum area of satara allowed team to create awareness among the students of Government Middle school on child rights and child protection through a street play.
- ☐ Children form village of satara ,complained during the open house session that the mid day meals Provided to them was of a low quality and that the meals were not regular .The mid-day meal supplier in all these areas was reprimanded and now all the children receive the meal as per the menu and on a regular basis.
- ☐ During the open House programme in satara district the children raised issues such as child Marriage, sewage problem and lack of basic amenities in their school .As a result of the open house session 5 child marriage cases were reported and intervened by CHILDLINE as well as safe drinking water facility was provided by the panchayat. Along with this a plan was decided upon in order to construct the School compound and toilets for the students.

RESPONDING TO CHILDREN IN DISTRESS

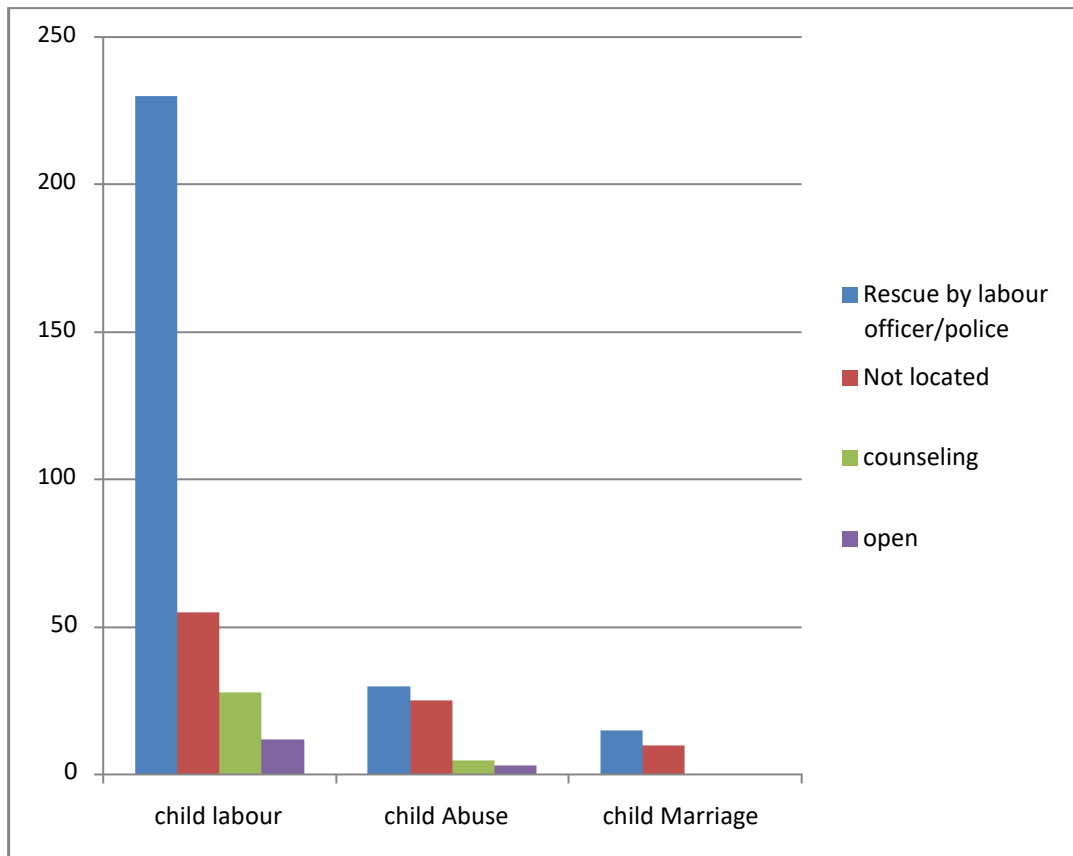

CHILDLINE is a phone outreach based intervention model and the work begins when a call for help comes in .As soon as this happens, local CHILDLINE teams are inform for direct intervention. Intervention covers a range of activities form rescuing children from abuse, providing immediate SOS attention, to registering a case at the police station, presenting a child to the child welfare committee (CWC) in the city, developing the paperwork for onward action as directed by the CWC and so on.

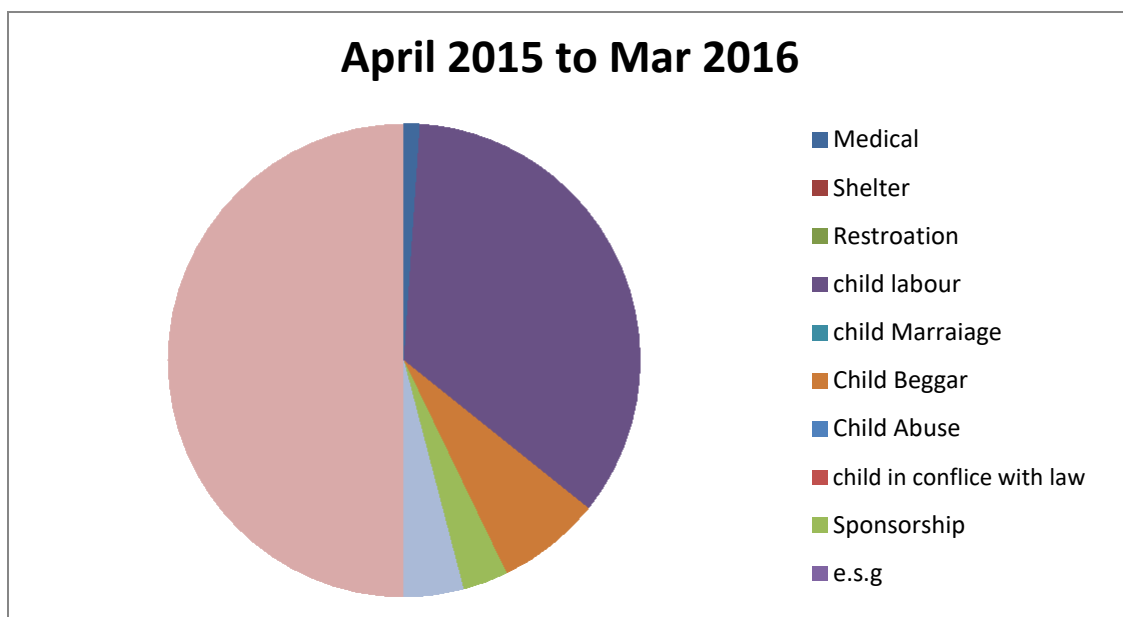

Each case is unique in nature. some take less than an hour to resolve whereas others take months of work. CHILDLINES operational model involves the team activating linkages to the allied system such as the police, Municipality,

Healthcare, Education and Transport Institutions along with Judiciary, Child care NGOs local, state and central Governments. Very often, the team has to provide unique solutions that require a relevant interpretation of legislations such as the Juvenile Justice Act as well as brief allied institutions on exceptional issues

Case form April 2015 to March 2016

## CAMPAIGNS:

### WORLD DAY AGAINST CHILD LABOUR

Every Year on 12 th June Governments, society and organizations focus their attention towards emphasizing on the plight of child labourers all over the world and taking efforts to eliminate the menace of child labour altogether. World day against child Labour was incepted by The International Labour organization(ILO) in 2002 to motivate everyone to fight against child labour and to make people conscious of the millions of children who work as paid or unpaid labourers and who are very vulnerable to exploitation.

CHILDLINEs all over India has observed this day through signature campaigns, distributing pamphlets, street shows etc to alert people on the issue and strengthen them to raise their voice 'Say No to child labour'
